High-Tech Crime:

How Your Department Can Expand Technology

Detective Michael Bazzell, Alton P.D.

(Computer Crime Specialist)

Cybercrime Panel

This year's Summit has a dual theme, as the impact of drugs and the internet on our society are interconnected in many ways. Both are addictive - both can be a nightmare for law enforcement. It is imperative for law enforcement executives to stay current with ongoing technological developments. Today's executives must be aware of developing technology, and should also have a working knowledge of what this technology can do for their agencies.
